SWEETY PAUL

+91 9734743058 | sweetypaul2005@gmail.com | linkedin.com/in/sweety-paul-a8765a393 | github.com/SweetyPaul19

SUMMARY

Full-Stack Developer skilled in MERN Stack, Django, and Machine Learning. Experienced in React, Node.js, Express.js, Django, Python, JavaScript, RESTful APIs, and data preprocessing, model training, and visualization using NumPy, Pandas, Matplotlib, and Scikit-learn. Familiar with Linear Regression, Logistic Regression, Decision Trees, Random Forest, and other supervised ML algorithms.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering — **August 2023 - Present**
Dr. B.C Roy Engineering College | CGPA : 7.9 (Up to 6th Semester) — Durgapur, West Bengal
Higher Secondary (12th) – WBCHSE – 66% — March,2023
Secondary (10th) – WBBSE – 85.14% — March,2021

SKILLS

Languages: C, Python, Java, JavaScript
Frontend: HTML, CSS, Bootstrap, React
Backend: Node.js, Express.js, Django
Databases: MySQL, MongoDB
AI/ML: NumPy, Pandas, Scikit-learn, Matplotlib, Data Preprocessing, Data Visualization, Feature Engineering, Model Training, Model Evaluation
Tools & Platforms: GitHub, VS Code, Jupyter Notebook
Core Subjects: Data Structures & Algorithms, Object-Oriented Programming (OOP), Operating Systems, Database Management Systems (DBMS)

EXPERIENCE

AI/ML Intern | Infosys Springboard — *Jun 2026 – Sept 2026*
Remote

- Built a Machine Learning System for Early Detection of Equipment Failure by performing data preprocessing, feature engineering, and machine learning model training for failure prediction.
- Designed a **real-time monitoring dashboard** to display **machine health status**, predict potential failures, and generate **early smart alerts** before equipment failure, enabling proactive maintenance.

PROJECTS

LAWLINK – WEBSITE LINK

- Developed a full-stack Legal & Justice Tech platform that connects users with advocates based on case type and location.
- Improved access to legal services by enabling real-time advocate matching and case categorization.

Tech Stack: Html, Css, JavaScript, Node.js, Express.js, MongoDB, JWT, REST API, Vercel

MACHINE LEARNING SYSTEM FOR EARLY DETECTION OF EQUIPMENT FAILURE – GITHUB LINK

- Developed a predictive maintenance system using a two-stage machine learning approach to predict machine failure and identify specific failure types.
- Built a Flask REST API and integrated MQTT for sensor data communication, real-time predictions, dashboard visualization, and email alerts.

Tech Stack: Python, Flask, Scikit-learn, XGBoost, MQTT, REST API, JavaScript, HTML,CSS

SKILLSYNC INTERN MATCHER - WEBSITE LINK

- Developed a full-stack internship recommendation platform using government internship-pool data, helping candidates find realistic opportunities based on education, skills, location, and sector preference.
- Replaced simple yes/no filtering with weighted ranking, skill-gap analysis, top-fit and growth-pick recommendations, AI-powered learning roadmaps, progress tracking, document uploads, and end-to-end application workflows.

Tech Stack: React.js, Vite, Flask, Python, MongoDB, GridFS, pandas, scikit-learn, OpenPyXL, Gemini API

ACHIEVEMENTS

1st Runner-Up, Hactopus Hackathon 2025 — Developed an innovative technical solution competing against teams nationwide. – [Certificates]
1st Runner-Up, HackZenith Hackathon 2025 — Demonstrated problem-solving and teamwork skills to secure top position. – [Certuficates]

CERTIFICATIONS

Artificial Intelligence & Machine Learning - Infosys springboard [Certificate] 2026
Data Structures and Algorithms with Java - Apna College [Certificate] 2025
Deloitte Technology Job Simulation – Deloitte [Certificate] 2025
Sql – HackerRank [Certificate] 2026
React Js – Udemy [Certificate] 2026
